Hiring Manager

aDolus

Dear Hiring Manager,

I am writing to express my interest in the part-time support role for the Software Development Support Assistant at aDolus Technology Inc. I am a highly responsible and self-motivated individual with a passion for technology.

Currently I am a candidate in the ITAS - Web and Mobile Development program at Vancouver Island University, with a GPA of 4.0. My programming skills are flexible and I am able to rapidly learn new languages that I will need in the position. I am well-organized with good prioritization and workload management abilities. I also have excellent verbal and written communication skills that I have developed from previous customer service jobs. I have a keen attention to detail and I am always eager to learn and ask questions.

I am excited about this opportunity to work with the Decomposition Team and data scientists to test pipelines, train AI models, and document bugs found in the system. I understand the importance of a strong work ethic and teamwork skills and I am confident that I would be a valuable asset to the team.

Thank you for considering my application and I look forward to the opportunity to discuss the job further.

Sincerely,
Angelica Pilor
